Setting up EufyLife Account

1. Click accept on the End User License Agreement.

2. After accepting, a three-part section will pop up. Swipe through to the last page and click "experience now."

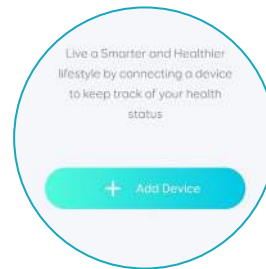

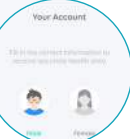

3. The Log In/Sign Up Eufy page will open. If you have not used Eufy products before, you will need to sign up.

4. To begin, fill out Location (USA), Email, and create a password. Then click, Sign Up.

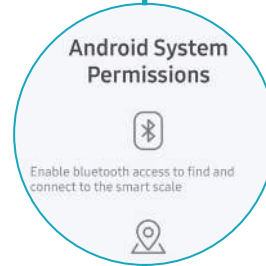

5. Next, fill out the additional demographics to create your account.

6. Next, you will add your EufyLife Scale device. Make sure your Bluetooth is on, to pair device. **Note:** You will need to put the batteries in the scale and turn it on to pair to the app.

7. In the app, go to settings and click add device.

8. Click, "I understand" on the Bluetooth permissions page.

9. Your app will now go to your scales default page. To remove scale, go to settings.
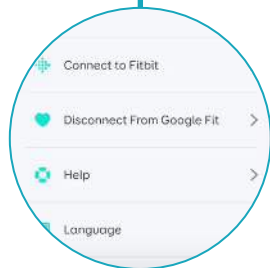

Pairing EufyLife App to Google Fit App for Android

1. Go to settings and scroll down until you see "Connect to Google Fit."

2. You will need to select the same Google account used with your Google Fit account.

3. Next, click allow access so EufyLife can connect information your Google Fit account.

4. Your EufyLife app is now connected to your Google Fit account.
