Section 2. General Information

2.1 Purpose of the Request for Proposal (RFP)

Southcentral Foundation (SCF) is soliciting proposals from qualified Progressive Design-Build Teams for the design, supply, and install replacement garage screen/ cladding to the parking garage at 4441 Diplomacy Drive, Anchorage, Alaska 99508. The garage and adjacent building are currently occupied and SCF wishes to see the design and replacement work completed no later than October 2026. See Section 3.1. Schedule for more information.

The Progressive Design-Build (PDB) delivery method will be utilized for this project. See the following link for more information on the Progressive Design-Build (PDB) delivery method:

[Primer-Progressive-Design-Build.pdf](#)

PDB was selected for this project because:

- PDB supports collaboration and teamwork among all project stakeholders, including the owner, designer, and contractor.
- All parties are engaged early in the process, which encourages open communication and timely decision-making. Potential issues can be identified and addressed earlier, reducing the likelihood of costly delays or disputes.
- PDB allows for iterative design and construction, enabling adjustments and improvements throughout the project lifecycle.
- PDB mitigates risks by fostering collaboration and shared accountability among all project stakeholders.
- Early input from the contractor helps identify potential construction challenges, cost-saving opportunities, and allows for better planning and scheduling.
- SCF is committed to a close, collaborative partnership with the PDB Team to refine, develop, design, and deliver the project.

The Scope of Services is further defined and provided as Exhibit A to this RFP. The Proposer shall subcontract with other firms, if deemed necessary, to complete the tasks described in this RFP.

2.2 Contract Period

The contract term shall begin with the selection of a winning Proposer in January 2026. Proposers should provide the earliest completion date based on the scope of work and Proposer's capacity to perform the work. SCF would like this design work completed no later than October 2026.

SCF intends to enter into an initial contract for Phase 1 Pre-Construction Services for the Kisht'a Car T'uh Garage Screen/ Cladding Replacement. Phase 2 services will include all services after GMP execution, including construction, project closeout, and owner training.

Phase 1: Pre-Construction

The project will be split into the following phases: Phase 1 is all services prior to and the negotiation of a GMP, through 100% design and permitting.

Phase 2: Construction

Phase 2 services cover all services after execution of the GMP, including construction, project closeout, and owner training.

The contract term for Phase 1 shall begin with the selection of a winning Proposer in January 2026. Once the Design-Builder is under contract and a scope is developed for the design, a project schedule will be developed.

The Selected Design-Builder will provide all design, cost estimating, constructability and value engineering reviews, construction phasing/scheduling, subcontractor solicitation/participation, and on-going budget review and assistance as part of its Pre-Construction Services during Phase 1. The final deliverables of Pre-Construction will be the 100% design and GMP proposal. The GMP will be the maximum compensation for construction unless the GMP is amended by both parties, as provided for in the Contract Documents. SCF reserves the right to execute some of the work using another delivery method until such time as a revised GMP Amendment is accepted by SCF and made a part of the Contract Documents.

Phase 2 will be initiated upon acceptance and completion of Phase 1. Should SCF determine it is in its best interest to continue working with the selected Phase 1 Contractor on Phase 2, that Scope of Work MAY be added via addendum to the Contract Agreement. However, SCF also reserves the right re-solicit for contractors at any time to complete Phase Two of this project. SCF reserves the right to execute all of the work using another delivery method, including public bid, if good faith efforts between the parties fail to produce an agreeable GMP Amendment. All design deliverables from Phase 1 shall become the property of SCF.

2.3 Project Budget

SCF has not yet defined a budget for this project. As the program and design progresses, Design-Builder construction cost pricing will be generated at 35%, 65%, and 95% design phases. The Design-Builder's 95% cost pricing shall be reconcilable to within 2% of an independent estimate. A GMP will be negotiated at 100%. Cost estimates prior to negotiation of GMP will be presented to and reviewed "open-book" with SCF Leadership for approval prior to starting next milestone.

Section 7. Standard Contract Terms

7.1 Introduction

SCF is providing the following standard provisions for Proposers to review and consider in advance of a submitted proposal. These and other standard provisions will be presented to a successful Proposer at the time of contract award.

The Agreement between the two parties for the Design and Pre-Construction Services Phase (Phase 1) will be the AIA Document A141-2014, SCF Modified, Standard Form of Agreement Between Owner and Design-Builder, which SCF will provide when ready to enter into an agreement with the winning Proposer. See Exhibit D: Sample of SCF Modified A141-2014.

This contract is for Phase 1 – Pre-Construction and Design. Once the design has advanced to where a GMP can be developed, the GMP price shall be negotiated and agreed upon, and if so, the SCF intends to enter into a new agreement with the Design-Builder for the construction of the building (Phase 2). If an agreement cannot be reached, all design deliverables shall become the property of SCF, this agreement shall be terminated, and SCF shall be free to investigate other delivery options with other parties for the construction of the work.

7.2 Conflict of Interest

Proposer shall not refer work to itself or to any prohibited entity in violation of the Stark anti-kickback provisions of Federal law. During the term of this Agreement, at any time and from time to time, Proposer agrees to immediately notify Owner's Contract Administrator in writing of all situations that may fall within the scope of these provisions. If any conflicts exist at the time of the execution of this Agreement, Proposer agrees to submit a separate written attachment to this Agreement for SCF review. SCF will determine if the conflict is significant and material, and if so, will notify the Proposer in writing that said conflicts are a material breach and grounds for termination of the Proposer's services.

EXHIBIT A: Scope of Services

Southcentral Foundation (SCF) is soliciting detailed proposals from qualified Progressive Design-Build (PDB) Teams for the design, supply, and construction of the garage screen/ cladding replacement to the 6 -story Kisht'a Car T'uh Parking Garage. The K'kuyaqa Niltu building (Gottlieb Building) and attached Kisht'a Car T'uh Parking Garage (Denali Parking Garage) are currently occupied and SCF wishes to see the design commence in February 2026 and work completed by October 31, 2026. See schedule for more information.

Contractor to provide all materials and labor required, as well as provides a site logistics and execution plan for SCF review and approval. Design Build Team to determine method that will best utilize intact metal support frames and can be used to support installation of screen or cladding replacement that adheres to Anchorage Municipal code. Multiple SCF stakeholders will be involved throughout the project duration, especially in the artistic design process that includes Alaska Native culturally inspired theme(s) of the facility. An assigned SCF Construction Project Manager will be the primary point of contact.

Design Approach

2025 SCF Design Standards

Southcentral Foundation's (SCF) design standards for construction projects version 1 (working draft) (Exhibit L) provide a clear framework to guide building development. These standards establish specific guidelines, requirements, and best practices to ensure quality, consistency, and alignment with SCF's mission and values. SCF ensures that all facilities are functional, durable, cost-effective, and environmentally responsible, while meeting the needs of customer-owners and supporting the organization's long-term vision. Design-Builder should review and incorporate SCF's 2025 Design Standards version 1 (working draft) during the design process.

Project Site

The project site is located at 4441 Diplomacy Drive Anchorage, Alaska 99508, on the Alaska Native Health Center Campus. Contractors should note the facility must remain operational with minimum disruptions of entrances, traffic patterns and parking until the completion of the project. The facility clinical hours are Monday-Friday, 8am-6pm and Saturday, 8am-5pm.

Phase 1 Pre-Construction Services and Design Scope of Work

Design-Builder shall:

- Provide design development services and progressive cost estimates (10%, 35%, 65%, 95%, and 100% Drawings; outline, 65%, 95% and 100% Specifications) for Phase 1 with the end goal of negotiating a firm guarantee maximum price (GMP) for Phase 2 (Construction). Final GMP will be negotiated at 100% design phase completion, however a GMP proposal may be requested prior to 100% design completion. Identify milestones and proposed schedule.
 - Provide technical specifications describing material quality and workmanship as required for Divisions 2 through 49.

- Provide SCF electronic copies of the final drawings and specifications. Drawings to be sealed by an Architect or Engineer registered in the State of Alaska.
- Design a garage/ screen assembly appropriate for each section(s) to be replaced.
 - Deliverables will be organized per SCF Division 1.
 - Travel restraint systems.
 - Review the existing conditions for impact changes relating to mounting bracket thickness, equipment, and additional items not listed.
- Assess existing conditions and become familiar with any reports and as-built drawings/models pertaining to screen/ cladding design and construction of Kisht'a Car T'uh Parking Garage.
 - Careful consideration for existing conditions, technical criteria requirements, detailing and operational continuity of the building is critical.
- Submit plans to Authority Having Jurisdiction (AHJ) for review, approval, and permit. SCF will pay for any plan review/ permit fees, etc. Not expecting expedited plan review.
- Coordinate permitting. Submit the documents to Building Safety and resolve their technical review comments to obtain a Building Permit.
- Note that timely, organized SCF stakeholder engagement is a requirement for scope development. SCF will assist the Design-Builder in determining a pertinent stakeholder list, an engagement work plan, and stakeholder engagement schedule.
- Organize and lead stakeholder workshops to collect and incorporate SCF feedback at the schematic (35%), design development (65%) and 95% phases of the design. Organize and manage this process to obtain timely decisions needed to progress the project. Understanding the short and long-term cost implications for all new systems and equipment will aid in the decision-making process.
- Organize and lead weekly coordination and planning meetings (1 hour) with the Project Team, throughout Phase 1. These meeting will be regularly held "in-person" with SCF stakeholders in an SCF Anchorage building on the Alaska Native Health Center campus. Virtual meetings can be scheduled as needed.
- Apply Lean Construction practices to actively seek and suggest innovative Value Engineering solutions that will provide value to the owner by means of reduced costs or schedule, increased energy efficiency, operability, or life cycle, and other considerations that will help to align the project costs within SCF's budget.
- Investigate options for design packages that would allow for expedited procurement or phases of work to begin, that would benefit the overall project schedule and present to SCF for discussion and direction. Some early work packages may be removed from Phase 2 and added to Phase 1, if beneficial to SCF.
- Provide recommendations on project phasing to deliver sequence as soon as feasible—this portion of the project is the driver of the schedule.
- Autodesk Construction Cloud's Autodesk Build Software (SCF-provided) shall be utilized as the Project Management Information System (PM/Design management software) for all collaboration, storage of documents, meeting minutes, etc. throughout the duration of the project (including Phase 2, if awarded).

- Maintain proposed project team for the duration of the project unless otherwise approved by SCF within 21 days of written notice.

Phase 2 Construction Services Scope of Work

Design-Builder shall:

- Provide all services as required throughout construction.
- Hold a pre-bid conference at the project site with SCF and interested subcontractors/bidders.
- Provide GMP proposal in SCF approved format.
- Lead evaluation of subcontractor selection by competitive bid process.
- Assist SCF by answering technical questions during construction.
- Prepare submittals for SCF review.
- Facilitate weekly meetings with SCF during construction.
- Review and certify the Request for Payment
- Review the project at Substantial Completion and note deficiencies to be resolved by Contractor.
- Provide Record Drawings based on the Contractor's redlines of the Project Drawings in electronic formats .pdf, Autodesk .dwg, and Revit.
- Provide all Facilities Assets data field updates into SCF's choice of Asset Management System.

EXHIBIT B: Proposal Offer and Signature

RFP Number: SCF26-1085

RFP Name: Progressive Design-Build for Kisht'a Car T'uh Garage Screen/ Cladding Replacement RFP

Proposal Due Date: January 6, 2025

Proposer shall complete and return EXHIBIT B, Proposal Offer and Signature Page, with your submitted proposal, as a separate PDF file. Proposer shall initial each page and sign and date the last page.

Preparation of Fee Proposals

Part I – Phase 1 Costs: Guaranteed Maximum Price for Pre-Construction Services (Part 1A), 100 % Design (Part 1B). This amount is based on projected hours for employees proposed to work on Pre-Construction Services multiplied by fully burdened hourly rates for each employee plus estimated reimbursable costs (Part IV below). Proposers shall complete EXHIBIT B, showing projected number of hours for each individual employee and the corresponding fully burdened hourly rate for that employee. This item will establish the initial contract value for Pre-Construction Services for the selected contractor.

Part II – Phase 2 DB Fee: Provide the fee on a percentage basis including profit and overhead that will be applied to the direct Cost of the Work during Phase 2, the construction phase. SCF expects responsible proposals to fall within reasonable ranges. Contractors that propose fees or amounts below 3% shall provide specific, verifiable examples (within the past 5 years) where they have successfully provided Design-Build services on projects of similar size and complexity for the fee proposed. Costs for the Design-Builder's internal Project Manager for construction phase services shall be included in the proposed DB Fee section, regardless of onsite or home office location. For pricing comparison purposes an estimated Cost of the Work has been provided. This estimated number is for proposal comparison purposes only. The contractor will develop the actual Cost of the Work at completion of the 100% documents. The Proposed Design-Builder Fee percentage included in the price proposal shall be used to establish the actual profit and overhead Fee in the GMP.

Part III – Bonds and Insurance: Include costs for the required Bonds and Insurance as set forth in the RFP (see sample contract for requirements). Similar to the DB Fee above, state the percentage and multiply it by the target Guaranteed Maximum Price "GMP" Construction Costs provided to determine the single dollar amount for the Bonds and Insurance cost for the purpose of analysis of the Fee & Price Proposal.

Part IV – Staff Rates for Phase 1: Includes dollar amounts for staff Member Classifications, Hourly Rates, and Estimated Hours.

Part V – Summary of Fee & Price Proposal: The dollar amount for the Phase 1 Costs will be added to the dollar amounts for the DB Fee, Bonds, and Insurance to determine a single amount that shall be the Proposer's Total Fee/ Price Proposal.
