

# Participate in a QUIT Tobacco Study

## Share your experience trying a new approach to quitting tobacco.

The SCF Research Department is looking for volunteers to give feedback on a new approach. We want to know your thoughts on using a blood test that helps customize your QUIT tobacco plan.

You may be eligible to participate if you:

- Are Alaska Native and/or American Indian
- Are 18 years or older
- Smoke cigarettes daily
- Are interested in quitting tobacco

For your participation in the study (2 to 4 study visits through Summer 2026), you may receive up to \$325 in gift cards, depending on the number of study visits completed. Your participation is voluntary, confidential, and will not affect your care at Southcentral Foundation in any way.

To learn more, please scan this QR code or call the SCF Research Department at 907-615-1176 and mention the QUIT study.
